Subject: Uber Rides

I have used Uber several times in Columbia, SC and they are fantastic. I am a 53 year old single female and I have been hoping for some sort of decent public type transportation in Columbia and Uber is it. I am from St. Louis, MO and I am used to cabs, public buses and a metro rail system. I want and like the Uber cabs. Maybe if the politicians can figure out how to steal funds from the company they will be allowed to stay, we all know unless the politicians are getting rich off of the idea, it will not be allowed in this state.

Sincerely
Maria E Todd

Please allow Uber to operate in South Carolina.

The PSC already has interfered in other business aspects such as telecommunications carriers. This interference has caused residents to have fewer choices for their local and internet services.

The PSC should act as a resident and business friendly organization and not as the BULLY that it has become.

Thx,

I am frustrated by this decision to stop uber. They have saved many people from drinking and driving; who would not have normally taken a smelly, rude, more expensive, unsafe cab. This was a bad decision.

Matt keever

It can be changed for the greater good of our community!

Members of the PSC: We have to find a way to bring 21st century services like UBER into the transportation mix. This is the primary way our high-wage technology community gets around in Charleston. Lets move SC forward. Ernest
